

## SUBJECT: Environmental labelling of packaging

---

Dear customer,

Legislative Decree No. 116/2020, implementing Directive (EU) 2018/851 on packaging and packaging waste, introduced, starting from 01/01/2023, the obligation to label packaging to facilitate its collection, reuse, recovery and recycling.

In order to comply with this legal obligation, the company COFLE S.p.A. has asked its suppliers to intervene directly on the packaging by affixing the required label. If this is not possible and, consequently, if the environmental labelling is not present directly on the packaging, we provide you with information on the nature of our packaging to which you are asked to refer:

Packaging	Environmental labelling
Plastic bags/pouches	LDPE 4
Cards	PAP 21
Stretch film	LDPE 4
Wooden pallets	FOR 50
Pluriball	LDPE 4
Plastic strapping	PP 5
Corrugated cardboard box	PAP 20
Steel seals for strapping	FE 40
